Just Call Me Lonesome
Radney Foster

Drop D Tuning - Original = capo on 2nd fret
Intro -A-G-A-D

```
                G                                d
Just call me lonesome -  heartbroke and then some
                     A                              D
'Cause I ain't got no one -  since you've been gone
                   G                      D
You called me baby - now I've got a new name
                    A                    G           A         D
I don't need my old one -  call me lonesome - from now on

               A                          D
You used to call me -  your one and only
                  G              A
But now you only call me someone you once knew
                                          D
You were my angel -  before some stranger
               G                    A                      D
Stole your heart and stole my world when he stole you
```

Ch

Break - A-G-A-D

```
             A                    D
I see you with him - and fall apart again
                   G                 A
Remembering when I was the only man you needed
                                   D
We said forever -  we'd be together
                     G                     A                D
But he came between us - and now forever lies in pieces
```

Ch

```
                    A                    G           A         D   A  G  A  D
I don't need my old one -  call me lonesome - from now on
```
