Mandolin Wind
Rod Stewart

Capo 2nd Fret

Intro - A-G-A … A-G-A … D

```
            G                                D
When the rain came - I thought you'd leave
            G                                  D
Cause I knew how much - you loved the sun
            G                            D
But you chose to stay - stay and keep me warm
                  G                            D
Through the darkest nights -  I've ever known
          A                            G                                    D    G   D
If the mandolin wind - couldn't change a thing - And I know I - love ya

            G                        D
Oh the snow fell - without a break
G                                  D
Buffalo died - in the frozen fields you know
                  G                            D
Through the coldest winter - in almost fourteen years
     G                            D
I couldn't believe - you kept a smile
               A                                    G                                    D
Now I can rest assured - knowing that we've seen the worst - And I know I - love ya
G-D
          G                        D
Oh I never was good - with romantic words
           G                            D
So the next few lines - come really hard
G                                    D
Don't have much - but what I've got is yours
    G                            D
Except of course - my steel guitar
              A                                G                                    D
Cause I know you don't play - But I'll teach you one day - Because I - love ya
```

Break - G-D-G-D …. G-D-G-D …. A-G-A …. A-G-A ….. D

G D
I recall - the night we knelt and prayed
G D
Noticing - your face was thin and pale
G D
I found it hard - to hide my tears
G D
I felt ashamed - I felt I'd let you down
A G A
No mandolin wind - couldn't change a thing - Couldn't change a thing no, no

Break - A-G-A

A G A
La da da da da …. La da da da da …. La da da da da … da da da … x2
G
The coldest winter - in almost fourteen years
A G A
Could never - never change your mind …And I love ya- Yes indeed and I love ya
G A D
And I love ya - Lord I love ya - And I love ya - yes I do
