

Dixie Road

Tab Chords And Lyrics

By Lee Greenwood

Intro - G

G
I would pick - and we would sing - to the rhythm of that front porch swing
C G
The moonlight holds the spotlight that we shared
I found new notes - on this old guitar, she believed I could be a star
A7 D
She told me that she wanted to be fair
G
She said I love you more than to hold you down, boy you're glory bound
C G
We can't share a world of different dreams

So I chased mine and she found hers too, but someone else made hers
come true

D G
Now I'm a star - but every time I sing

My heart goes drifting down a dusty dixie road
C G
Taking my mind, back in time
L.A. lights - burn like hell - once you know
D G
You left heaven waitin' down the dixie road.

Break - G-C-G-D-G

G
Every night - I'm in a different place - and I'm searching every stranger's
face
C G
Trying to find the girl that's just not there

She's back there in Montgomery and I'm clear across the country
D G C G
But whenever I'm alone - I go back there

My heart goes drifting down a dusty dixie road
