G7 C C7

Well if you're feelin' unfeelin' - if you're feelin' alone - don't take it too bad  
F C

'Cause it ain't you to blame, babe - well it's only a game made  
G7 C

Out of all of this living - that we got left to do

And if you go searchin' - for rhyme or for reason  
F C

Then you won't have the time - that it takes just for talkin'  
G7 C

About the places you've been babe .. about the faces you've seen babe  
F C  
G7 C

And how soft the time flies - past your window at night

And we just can't have that girl - 'cause it's a sad lonesome cold world  
F C

And a man needs a woman - to stand by his side - and whisper sweet words  
G7 C C7

In his ears about daydreams - and roses and playthings  
F C

And the sweetness of springtime - and the sound of the rain
