

Drinking My Baby Goodbye

Lyrics And Tab

(By Charlie Daniels)

Drop D - A - D - G - A - D

D
Sitting on a bar stool acting like a dern fool
A
That's what I'm a doin' today
D
I'm sittin' here drinkin' tryin' to keep a thinking I'm crusin' my troubles away
Well now I couldn't make her stay well dog gone her anyway
G
She can't say that I didn't try-hi-hi
A
Poor me another one I'm finished with the other one I'm drinkin' my baby goodbye
D
Every time we disagree - she was always asking me
A
Are you a man or a mouse?
Now that she's gone she probably thinks that Im home
D
Just a moping around the house
She probably thinks - that she's the one thing
G
I just couldn't get along without
A
Well wouldn't this surprise her I gotta sympathize her as long as these bottles hold out
D

Chorus

Break - D - A - D - G - A - D

D
Every time I tried - to sit down and talk with her it always ended up in a fuss
A
I tried to reason with her right up till the time
D
That she got on that Grayhound bus
G
It'd be better if I could forget cause she sure forgot about me
A
And if it takes all night - I'm gonna do it right I'm gonna sit here till I can't see
D
