Bm                  Bm/A     G                   D/Gb
Help! I need somebody - Help! Not just anybody
E                                        A    (bass Ab-Gb-E)
Help! You know I need someone - Help!
A                                   Dbm
When I was younger, so much younger than today
Gbm                            D        G    A
I never needed anybody's help in any way
                                    Dbm
But now those days are gone I'm not so self-assured
Gbm                                      D       G       A
Now I find I've changed my mind, I've opened up the door.
 Bm                                      Bm/A  G                                  D/Gb
Help me if you can I'm feeling down, and I do appreciate you being 'round
E                                                        A       A/Ab  Gb    A
Help me get my feet back on the ground, won't you please please help me
A                                  Dbm
And now my life has changed in oh so many ways
Gbm                            D      G         A
My independence seemed to vanish in the haze
                             Dbm
But every now and then I feel so insecure
Gbm                                  D       G       A
I know that I just need you like I've never done before.
Bm                                      Bm/A  G                                  D/Gb
Help me if you can I'm feeling down, and I do appreciate you being 'round

Help me get my feet back on the ground, won't you please please help me
A                                   Dbm
When I was younger, so much younger than today
Gbm                            D        G    A
I never needed anybody's help in any way
                                    Dbm
But now those days are gone I'm not so self-assured
Gbm                                      D       G       A
