

# Hickory Wind

## Chords And Lyrics

### By The Byrds

Intro – G-D-C-G ... CBAG

                  D                  C                                  G  
In South Carolina - there're many tall pines

                  D                  C                                  D  
I remember the oak tree - that we used to climb

                  C                  D                                  G  
But now when I'm lonesome - I always pretend

                  C                  D                                  G  C  G  
That I'm headin' the field - of hickory wind

                  D                  C                                  G  
I started out younger - had most everything

                  C  D  
All the riches and pleasures - what else can life bring?

                  C                  D                                  G  
But it makes me feel better - each time you begin

                  C                  D  G          C  G  
Callin' me home - hickory wind

Break – D-C-G

                  D                  C                                  G  
It's a hard way to find out - that trouble is real

                  D  C                                  D  
In a faraway city - with a faraway feel

                  C                  D                                  G  
But it makes me feel better - each time you begin

                  C                  D                  G  C  G  
Callin' me home - hickory wind

                  C  D                  G  CBAG  
Keeps callin' me home - hickory wind
