It comes from Mississippi, and down in Alabam
Creepin' like a fever all across the land
From deep in the Delta on the Louisiana shore
The people got to have it, they wanna hear some more

Doin' a little thing called the hillbilly rock

Some say it came from Memphis down in Tennessee
Or it drifted in from Georgia about 1953
Just as long as it's greasy, as long as it's fast
As long as it's pumpin' honey, it's gonna last

Ch ----- > Break – D-A-D-E-A

A

Way back in old Kentucky where the bluegrass grows
Through the Carolinas on them dirt red roads
Burnin like a fire runnin' wild in the woods
From Arkansas to Texas, it sounds so good

Ch

So when the heat starts to risin' and you gotta blow some steam
Take a ride down the river, you'll see just what I mean
The juke joint's jumpin, when that cat goes on
The whole place is shakin', there's a something goin' on
