It's Not Supposed To Be That Way
Tab Chords And Lyrics
By Willie Nelson

```
     E7                          A                                   E
It's not supposed to be that way - You're supposed to know that I love you
                          B7                                  E
But it don't matter anyway - If I can't be there to control you
                       A                                          E
Like the other little children - You're gonna dream a dream or two
                                B7
But be careful what you're dreamin'
                                        E   E7
Or soon your dreams'll be dreamin' you

                                  A                                    E
It's not supposed to be that way - You're supposed to know that I love you
                          B7                                  E
But it don't matter anyway - If I can't be there to console you
                                  A                                   E
When you go out to play this evenin' - Play with fire flies till they're gone
                                   B7                                  E
And then you rush to meet your lover - And play with real fire till the dawn
                                  A                                    E
It's not supposed to be that way - You're supposed to know that I love you
                          B7                                  E
But it don't matter anyway - If I can't be there to control you

Break – A-E-B7-E

                                   A                                   E
When you go out to play this evenin' - Play with fire flies till they're gone
                                   B7                                  E
And then you rush to meet your lover - And play with real fire till the dawn
                                  A                                    E
It's not supposed to be that way - You're supposed to know that I love you
                          B7                                  E
But it don't matter anyway - If I can't be there to console you
```
