

Leona

Tab Chords And Lyrics

By Sawyer Brown

Intro – G-C-G-C-G (X4)

Could I lean on you Leona - could I rest here for a while
could I lean on you Leona - please help me make another mile
Could I lean on you Leona - would you help me till I'm strong
Could I lean on you Leona - till I can make it on my own

Well, you have been my rock for ages - your the only truth I've ever found
And every time I stumble - you pick me up on my way down
Well you've been my sanctuary - you've been my haven in the storm
And I've always found a shelter - here inside your lovin' arms

Ch

Intro

You have always been my sunshine - when I'm running from the rain
Well I know I'm wearing out my welcome
This one more time please ease the pain

Ch x 2
