Man Of Constant Sorrow
Tab And Lyrics
By The Soggy Bottom Boys

Capo on 3rd fret - Intro – D-A-D (drop D tuning)

```
D                    A                    D
      In constant sorrow all through his days
D                          G                  A              D
I am a man of constant sorrow-I've seen trouble all my days
                           G                      A                  D
I bid farewell to old Kentucky-The place where I was born and raised
                    A                  D
The place where he was born and raised
                                       G                  A                  D
For six long years I've been in trouble - No pleasures here on earth I found
                                     G                  A                  D
For in this world I'm bound to ramble - I have no friends to help me now
               A                   D
He has no friends to help him now
                                   G                  A                  D
It's fare thee well my old true lover - I never expect to see you again
                                          G                  A                D
For I'm bound to ride that northern railroad - Perhaps I'll die upon this train
              A                D
Perhaps he'll die upon this train
```

Break – D-G-A-D …. D-G-A-D

```
D                                  G                  A                  D
You can bury me in some deep valley - For many years where I may lay
                                   G                  A                  D
Then you may learn to love another - While I am sleeping in my grave
              A                D
While he is sleeping in his grave
                                       G
Maybe your friends think I'm just a stranger
              A                  D
My face you never will see no more
                                   G                          A                D
But there is one promise that is given - I'll meet you on God's golden shore
               A                  D
He'll meet you on God's golden shore
```
