

# Meadow Green

## Chords And Lyrics

### By Peter Rowan

Intro – G

As I walked down - one summer's morning  
As the rising sun did gleam  
All the dawn birds they were singin'  
Singin' on - the meadow green

Way over yonder - comes my sweetheart  
Just like an angel - in a dream  
I heard pure melody ringin'  
Ringin' out on - the meadow green

Come away with me - to the red red roses  
Where no man - has ever been  
There our love - will bloom forever  
Forever on - the meadow green

In a lightnin' flash - came a fiery stallion  
C G  
With the jet-black coal - of midnight sheen  
C  
From the forest - he came prancing  
D G  
Dancing on - the meadow green

As I beheld - this magic beauty  
C G  
Oh my love - she rode across the stream  
C  
And I stood pale - and still as moonlight  
D G  
As moonlight on - the meadow green

C G  
Come away with me - to the red red roses  
C G  
Where no man - has ever been  
C  
There our love - will bloom forever  
D G  
Forever on - the meadow green

Break – G-C-G-C-D-G

As the sunrise kissed - the glistening dew drops  
C G  
My sweetheart - could not be seen  
C  
A haunting melody – it still lingers  
D G  
Lingers on - the meadow green

Them lonely hours when I wander

To my wondering - eyes it seems

I see moonlight blue and red roses

Red roses on - the meadow green

Come away with me - to the red red roses

Where no man - has ever been

There our love - will bloom forever

Forever on - the meadow green

Come away with me - to the red red roses

Where no man - has ever been

There our love - will bloom forever

Forever on - the meadow green
