```
  E                                A                  B7
Everytime I think of you - I always catch my breath
               E
And I'm still standing here - And you're miles away
            A                   B7
And I'm wonderin' why you left
                Bm                                  A              B7
And there's a storm that's raging - Through my frozen heart tonight
                E                                   A              B7
I hear your name in certain circles - And it always makes me smile
               E                                    A                 B7
I spend my time - thinkin' about you - And it's almost - driving me wild
                Dbm                                 A                 B7
And there's a heart that's breaking - down this long distance line tonight

                   E                                                 A      B7
I ain't missing you at all - (Missing you) - Since you've been gone - away
                   E                 A               B7
I ain't missing you - No matter what my friends say

               E                                  A                        B7
There's a message - in the wire - And I'm sending you this signal tonight
             E
You don't know - how desperate I've become
          A                        B7
And it looks like I'm losing this fight
           E                                          A                   B7
In your world - I have no meaning - Though I'm trying hard to understand
              Dbm                                   A                    B7
And it's my heart that's breaking - Down this long distance line tonight

                   E                                                 A      B7
I ain't missing you at all - (Missing you) - Since you've been gone - away
                   E                 A               B7
I ain't missing you - No matter what my friends say
