With head bowed down Im a leavin this town - Boy what a shape Im in

I didnt mean to fall in love and I wish Id never been

Don't remember what she did - what she said or when

With head bowed down I'm a leavin this town - never comin back again

Cause my heart is breaking - why she have to be so cold

And my soul is aching - I need somebody to hold

Don't know where I'm goin - but I sure know where `Ive been

So with head bowed down I'm a leavin this town never comin back again

I never been this down before - I never hurt so bad

I didnt mean to fall in love and I wish I never had

She took the world I knew so well - turned it outside in

So with head bowed down Im a leavin this town - never comin back again

Ch - THEN KEY CHANGE

Cause my heart is breaking - why she have to be so cold

And my soul is aching - I need somebody to hold

Don't know where I'm goin - but I sure know where `Ive been

So with head bowed down I'm a leavin this town never comin back again

So with head bowed down I'm a leavin this town never comin back again
