

On The Verge

Tab Chords And Lyrics

By Colin Raye

Intro - G-C

G

Well they shouldn't have played that good

I got carried away and let the music - go to my head

Well she shouldn't have worn that dress

The way it curled around when she was spinning - just killed me dead

My heart began to tell my body and my soul

That it had gotten in the mood to lose control

Oh no - when did neon light turn into moonglow

When did that jukebox turn to a rainbow

I'm about to give into this urge

One more slow dance with her arms around me

One more long glance and nothing will slow down me

I got no chance, if I'm not in love I'm on the verge

All I wanted to be was cool

It ain't my style to overheat - much less burn

But as we floated across the floor

All at once I flashed right past the point, of no return

And when we said goodnight the sun was on the rise

And any stars that hadn't set had fallen in my eyes
