

# Once A Day

## Tab Chords And Lyrics

### By Martina McBride

Intro – G-C-G-D-G

When you found somebody new I thought I never would  
Forget you - for I thought then - I never could  
But time has taken all the pains away  
Until now - I'm down to hurtin' - once a day  
Once a day - all day long - and once a night - from dusk till dawn  
The only time - I wish you weren't gone -is once a day -every day  
All day long

Break – G-C-G-D-G

I'm so glad - that I'm not like a girl- I knew one time  
She lost the one she loved then slowly lost her mind  
She sat around - and cried her life away  
Oh lucky me - I'm only cryin' - once a day

Ch

Is once a day -every day - all day long
