

Out On A Limb

Tab Chords And Lyrics

By The Dillards

Intro- G - Em - C - D - G - D

We are lying here - sad but flat (?) beneath the moon

We share the hours of the night that pass too soon

Tho your eyes are clear - I can't tell what's on your mind

I'm out on a limb - I'm out on a line

Yes I know it's true - what I'm feeling in my heart

The words may not have come out right - but it's a start

So I wait for you - but you're taking too much time

I'm out on a limb - I'm out on a line

You can tell me that you love me - and turn my life around

Or you can cut the strings above me - and watch me hit the ground

So the time has come - to see what is or is not mine

I'm out on a limb - I'm out on a line

Break - G - Em - F - C - G - D ... G - Em - C - D - G

You can show me that you love me - and turn my life around

Or you can cut the strings above me - and watch me hit the ground

So the time has come - to see what is or is not mine

Im out on a limb - I'm out on a line x 4
