

# Rodeo Girl

## Micky And The Motorcars

Intro - G-Em-C-D x2

                  G                  Em                  C                  D  
When we open the gate I'll be riding for eight sometimes I hit the ground  
G                  Em                  C                  D  
Face down in the mud in front of my love in another cowboy town  
                  G                  Em                  C                  D  
If I lose my money it's alright honey I can always count on you  
                  G                  Em                  C                  D          G  
To ride your best and win the West the way you always do

                  G          Em          C                                  D  
And we're gonna ride tonight - if I can keep it in the middle babe  
G                                  Em          C                                  D  
Everything will work out fine - I've already won the world  
                  G          Em          C          D          G          Em          C          D  
Just having you by my side - my rodeo girl

                  G                  Em                  C                  D  
The way you patch me up when I'm busted up you know just what to do  
                  G                  Em          C                                  D  
My lovely little rodeo cowgirl always pulls me through  
                  G                                  Em                                  C                                  D  
You take the reigns and you ease my pain when I'm broken, battered, and bruised  
                  G                  Em                  C                  D          G  
You know me honey I'll always be your lovestruck buckaroo

Ch

Break - Em-C-D ... Em-C-D --- G

                  G                  Em                  C                  D  
Well you're sitting on top of the tenth go round - under Sin City lights  
                  G                  Em                  C                  D  
You got nothing to lose so turn her head loose and let that pony fly  
                  G                  Em                  C                  D  
I've been looking for you from the back of the chutes I've got one left to go  
                  G          Em                  C          D          G  
And win or lose I still have you so either way I won the gold

G Em C D  
And we're gonna ride tonight - if I can keep it in the middle babe

G Em C D  
Everything will work out fine - I've already won the world

G Em C D  
Just having you by my side - you're my rodeo

G Em C D G Em C D  
Yeah you're my rodeo - You're my rodeo girl

Em-C-D ... Em-C-D --- Em
