Tab Chords And Lyrics
By Emmylou Harris

Capo 2th fret
Intro – A-D

```
D                    A                    D
Now if I were a queen - and ruler of nations
      G                          D
With diamonds and jewels profound
                   A                    D
Well, I'd rather know - that I had salvation
                       A                                    D
Than to know my reward - would be Satan's jeweled crown
                   A                          D
Satan's jeweled crown - I've worn it so long
     G                               D
But God for my soul has reached down
                   A                        D
His love set me free - He made me His own
                       A                    D
And helped me cast off - Satan's jeweled crown
```

Break – A - D

```
                   A                    D
Oh, the life that I live - so sinful and needless
G                        D
Drinkin' and runnin' around
                       A                          D
All the things that I do - for the love of the devil
              A                                   D
I know my reward - will be Satan's jeweled crown
A                          D
Satan's jeweled crown - I've worn it so long
     G                               D
But God for my soul has reached down
                   A                        D
His love set me free - He made me His own
                       A                    D       G    D
And helped me cast off - Satan's jeweled crown
