

Second Wind Tab Chords And Lyrics By Darryl Worley

Intro -G

There's an old friendly breeze that blows - in the Gulf of Mexico
Somehow it always knows - when I'm feeling low
So I'm gonna anchor down - and wait till it comes around
Leave the rest of the world behind- Yeah that's how I'll pass the time

Till I catch my second wind - get back up and gain control again
Find the strength I lost back when - you stopped loving me
I guess I'll just stay out here - until I know the coast is clear
Sit and watch the tide roll in - till I catch my second wind

There's a peace in the way I feel - when the water's still
And as long as it's calm out here - I've got time to kill
But as soon as it starts to stir - I'll lose track of the way things were
Float away on the open air - but I'm not going anywhere
