

That's What I Get Tab By BR549

Intro - D - A - D

Well it's been years since I made all the rounds
And closed up all the honky tonks in town
Well I just got used to being on my own
Waiting for no one to call my own
But now the hand of fate has laid a card on me
A winning hand I didn't wanna see
No one I could blame - I wanted in this game
But now I'm right back where I never thought I'd be
That's what I get - for falling once again
You made me forget with no regrets what I knew back then
Well I thought I knew it all, I swore I'd never fall
But here I go again that's what I get

Break A-D-A-D

Now I resign myself to you and I don't care
You make me feel like I'm a millionaire
And because of you I gave that wheel a spin
Even though I know the house will always win

2ND Verse Chorus Break again .. then last 2 lines of Chrous
