The Green Rolling Hills Of West Virginia
Tab And Lyrics
By Emmylou Harris

Intro – G-D-G   (Capo on 2nd fret optional)

```
     G          D          G
The green rolling hills of West Virginia
        C                            D
Are the nearest thing to heaven that I know
          G                         C
Though the times are sad and dear - and I cannot linger here
       G          D          G
They'll keep me and never let me go
```

```
            D          G
My daddy said don't ever be a miner
      C                        D
For a miners grave is all you'll ever own
          G                      C
Cause the hard times everywhere - I cant find a dime to spare
       G             D             G
These are the worst times I've ever known
```

```
        G          D          G
But the green rolling hills of West Virginia
          C                          D
Are the nearest  thing to heaven that I know
          G                         C
Though the times are sad and dear - and I cannot linger here
       G          D          G
They'll keep me and never let me go
```

```
          G         D             G
So I'll move away into some crowded city
        C                              D
In some northern factory town you'll find me here
          G                      C
Though I'll leave the past behind, - I'll never change my mind
       G             D             G
These trouble times are more than I can bear
```

```
              G          D          G
But the green rolling hills of West Virginia
          C                            D
Are the nearest  thing to heaven that I know
                G                      C
Though the times are sad and dear - and I cannot linger here
        G          D          G
They'll keep me and never let me go
```

BREAK – G-D-G-C-D-G-C-G-D-G

```
                    D              G
But someday I'll go back to West Virginia
          C                      D
To the green rolling hills I love so well
          G                      C
Yes someday I'll go home - and I know I'll right the wrong
          G                D          G
These trouble times will follow me no more
                            C
Yes someday I'll go home - and I know I'll right the wrong
          G                D          G
These trouble times will follow me no more
```
