moon, baby - This is how we roll

Yeah, baby, this is how we roll - We rollin' into town

With nothing else to do we take another lap around - Yeah holler at

your boy - if you need a ride

If you roll with me yeah you know we rollin high up on them 37 Nittos

windows tinted hard to see though

How fresh my baby is in the shotgun seat oh

Them kisses are for me though automatic like a free throw

This life I live it might not be for you but it's for me though

This is how we roll

We hanging round singing out everything on the radio

We light it up with our hands up - This is how we roll

This is how we do - When the world turns ugly I just turn and look at

you, baby this is how we roll
