          G                                C7
I go out walking - after midnight - out in the moonlight - just like we used to do
               G            C7       D7           G   D7
I'm always walking - after midnight - searching for you
          G                                        C7
I walk for miles - along the highway - well that's just my way - of saying I love you
               G            C7       D7          G  G7
I'm always walking after midnight searching for you

               C                                        G           D7        G   G7
I stopped to see a weeping willow - crying on his pillow - maybe he's crying for me
               C                  Cm                            G                 D#7 D7
And as the skies turn gloomy - night winds will whisper to me I'm as lonesome as I can be

          G                                C7
I go out walking after midnight out in the starlight  - just hoping maybe
                        G              C         D7          G   D7
You're out her somewhere  - After midnight searching for me
