

Your Picture Still Loves Me

Tab Chords And Lyrics

By Billy Swan

Intro – C-G-D-7

It's been so long since I've held you - though you're here everyday
Keeping me company - in a sad kinda way

Your smile never changes - even now that we're through
Your picture still loves me - And I still love you

It's the last thing I see - before I go to sleep
And it's the one thing you gave me - that I'll always keep
You signed it - forever - and though it's not true
Your picture still loves me - and I still love you

Break- C-G-D-G

It's the last thing I see - before I go to sleep
And it's the one thing you gave me - that I'll always keep
Your closet is empty - my whole world is too
But your picture still loves me - and I still love you
Yes your picture still loves me - And I still love you
